medicine and healthcare. Your commitment is what drives us forward.

With our annual conference | themed **From Foundations to the Future of Medicine** | being less than a month away,

. This two-day conference is packed with exciting activities such as medical improvisation, joint injections and knee/shoulder exams and favorite past offerings such as POCUS. Of course, we will host Doctor's Dilemma and our Regional Poster Competition. Over 200 competitive abstracts and posters were accepted thanks to virtual posters replacing traditional, physical posters that were costly and limited use of space.

The conference agenda is also packed with dynamic lectures and workshops. Attendees will have a chance to witness live magic interwoven with a talk on artificial intelligence (AI), learn about addiction medicine, women's health, oncological psychiatry, transitional health, and so much more | such as mentoring sessions, wellness workshops, IMG panel discussions, and early career physician activities.

Over 12 CME/MOC credits can be earned through ACP for attendance at the conference. Parking is also free and convenient. Don't miss out on an opportunity to
