

Teachable Moments: (Accepting articles now!)

A new series to encourage trainees at all levels to submit articles that bring attention to the harm that can result from over testing, over diagnosis and overtreatment of medical care. Our long term aim is to promote appropriate medical care.

Maximum specifications:

500-800 words, 3 authors: (1st Author must be a TRAINEE)

For more information or to submit a case, contact Chris Moriates at
